Fantasy Feedout

Draft Day:

- November 12, 2019
- Students on-site. Once all calves are weighed and penned the students will evaluate the cattle.
- Upon evaluation all students will return to the classroom building and draw a number to decide chapter selection order.
- Steers will be selected using a “snake draft.” The first round order will be reversed in round two, etc.
- Number of rounds will depend on the number of chapters (10 chapters, 10 steers, 10 rounds) (15 chapters, 6 steers, 6 rounds, 10 waiver steers). Chapters can be any size. Splits larger than 12.

Game Day:

- Each Saturday is Game Day. Each team competes against each other for the best pen. This will determine the ranking of each chapter. Points will be awarded weekly for gains and feed conversion.
- Each Friday a Game Day Update will be posted on social media with the results of the prior week.
- A performance sheet will be sent to each chapter weekly to present standings.
- The season will be the length of the feeding period. The first harvest date will start the playoffs.

Playoffs:

- Valley Oaks Steak Company will serve as the host.
- A Game Day Update will be provided weekly on the two teams that went to the packer that week. At that time their season will be re-evaluated. Points will be given based on quality, yield and profitability.
- Once the playoffs begin all Game Day regular season point accumulations will stop.

Champion:

- The chapter with the best average score at the end of the feedout will be the Champion Chapter.
- Cash and Prizes will be presented to the top five chapters based on average score.
